## Small Business Financing–Access to Capital

Does your business need money for working capital, inventory, equipment, leasehold improvements, renovations or expansions? Are you thinking of purchasing property for your very own business facility? If you answered **YES** to any of these questions then you should attend this briefing! Learn how to access needed capital. Instructors will define the importance of credit, planning, and preparation – three key elements in securing a small business loan. In addition, hear about SBA's guaranty loan program and how it can be an option for your financing needs through participating lenders and credit unions. SBA assists eligible start-ups and existing businesses with financing to include business counseling and training in partnership with various programs i.e. the Small Business Development Center, Service Corps of Retired Executives and Women's Business Centers.
